**Example of Auto-Switching Audio Mics
(Access changed from original presentation)**

HEAR EVERY VOICE CLEARLY

While ordinary microphones pick up any sound, these mic pods hear voices. With RightSound™ technologies to auto-level voices, suppress noise, and cancel echo, conversations feel remarkably lively and natural.

Thanks to the union of advanced technology and robust build quality, Rally Mic Pods deliver both remarkable range and exquisite sensitivity. Thoughtful materials resist fingerprints and stains, while a color-coded LED icon provides clear visual confirmation when muted.
