

I hope this message finds you well. My name is Yalda Sharif, and I am currently in my final semester of doctoral studies in clinical psychology (PsyD). I am reaching out to inquire about potential predoctoral internship opportunities within your esteemed facility for the upcoming semester in July or September, part-time or full-time (Preferably).

I would greatly appreciate your guidance and consideration regarding any available positions that would allow me to contribute to your organization. I prefer being hired in a paid role that is either in-person or hybrid/remote within the facility, in accordance with my school requirements.

Thank you for your time and assistance. I look forward to the possibility of discussing this further.

Warm regards,

Yalda Sharif
